Nhlanhla Muthwa

Software Developer

Durban Metropolitan Area

Summary

I am a very innovative and technical minded Software Developer who have ability to solve complex
problem with pedagogical thinking skills and have attitude of adding the value to the world
through software development and advanced Technology.I am eager to be exposed to new advanced technologies and also learning from others.

I believe my training, experience, and proven ability as a Technical Support Assistant and Software Developer will allow me to significantly contribute to the productivity and quality of any company's IT division.

I have acquired valuable experience in all facets of troubleshooting, installations, and maintenance for various desktop operations, hardware, and software. I possess a unique talent for translating highly complex technical information into terms and concepts that the end users can readily grasp.

Furthermore, I am multi-task oriented, enjoy a challenge, and continually stay abreast of the latest advancements in the IT field.
